

# YEAR 2 BASIC ASSESSMENT

1. 
$$\begin{array}{r} 30 \\ + 27 \\ \hline \end{array}$$

2. 
$$\begin{array}{r} 36 \\ - 15 \\ \hline \end{array}$$

3. 
$$\begin{array}{r} 96 \\ - 29 \\ \hline \end{array}$$

4. 
$$\begin{array}{r} 26 \\ + 47 \\ \hline \end{array}$$

5.  $5 \times 3 = \square$

6.  $3 \times 4 = \square$

7.  $2 \times 8 = \square$

8.  $2 + 1 + \square = 5$

9.  $7 - \square = 4$

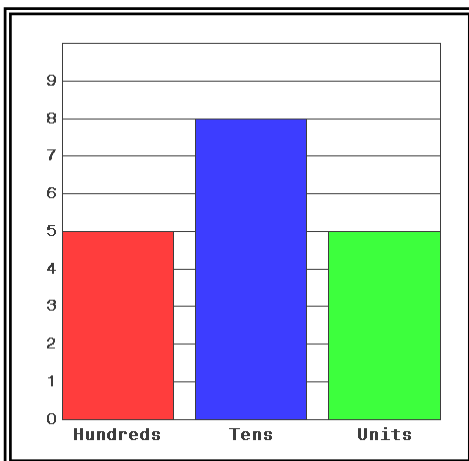

10.  $7 - 3 + \square = 13$

13. Warwick has 6 silkworms more than William. If William has 5 silkworms, how many silkworms does Warwick have?

14. Which numbers are missing in the pattern?

3      6            12                  21     

15. What is the number represented on this graph?

16. How many sides does this shape have?
